Why Africa?

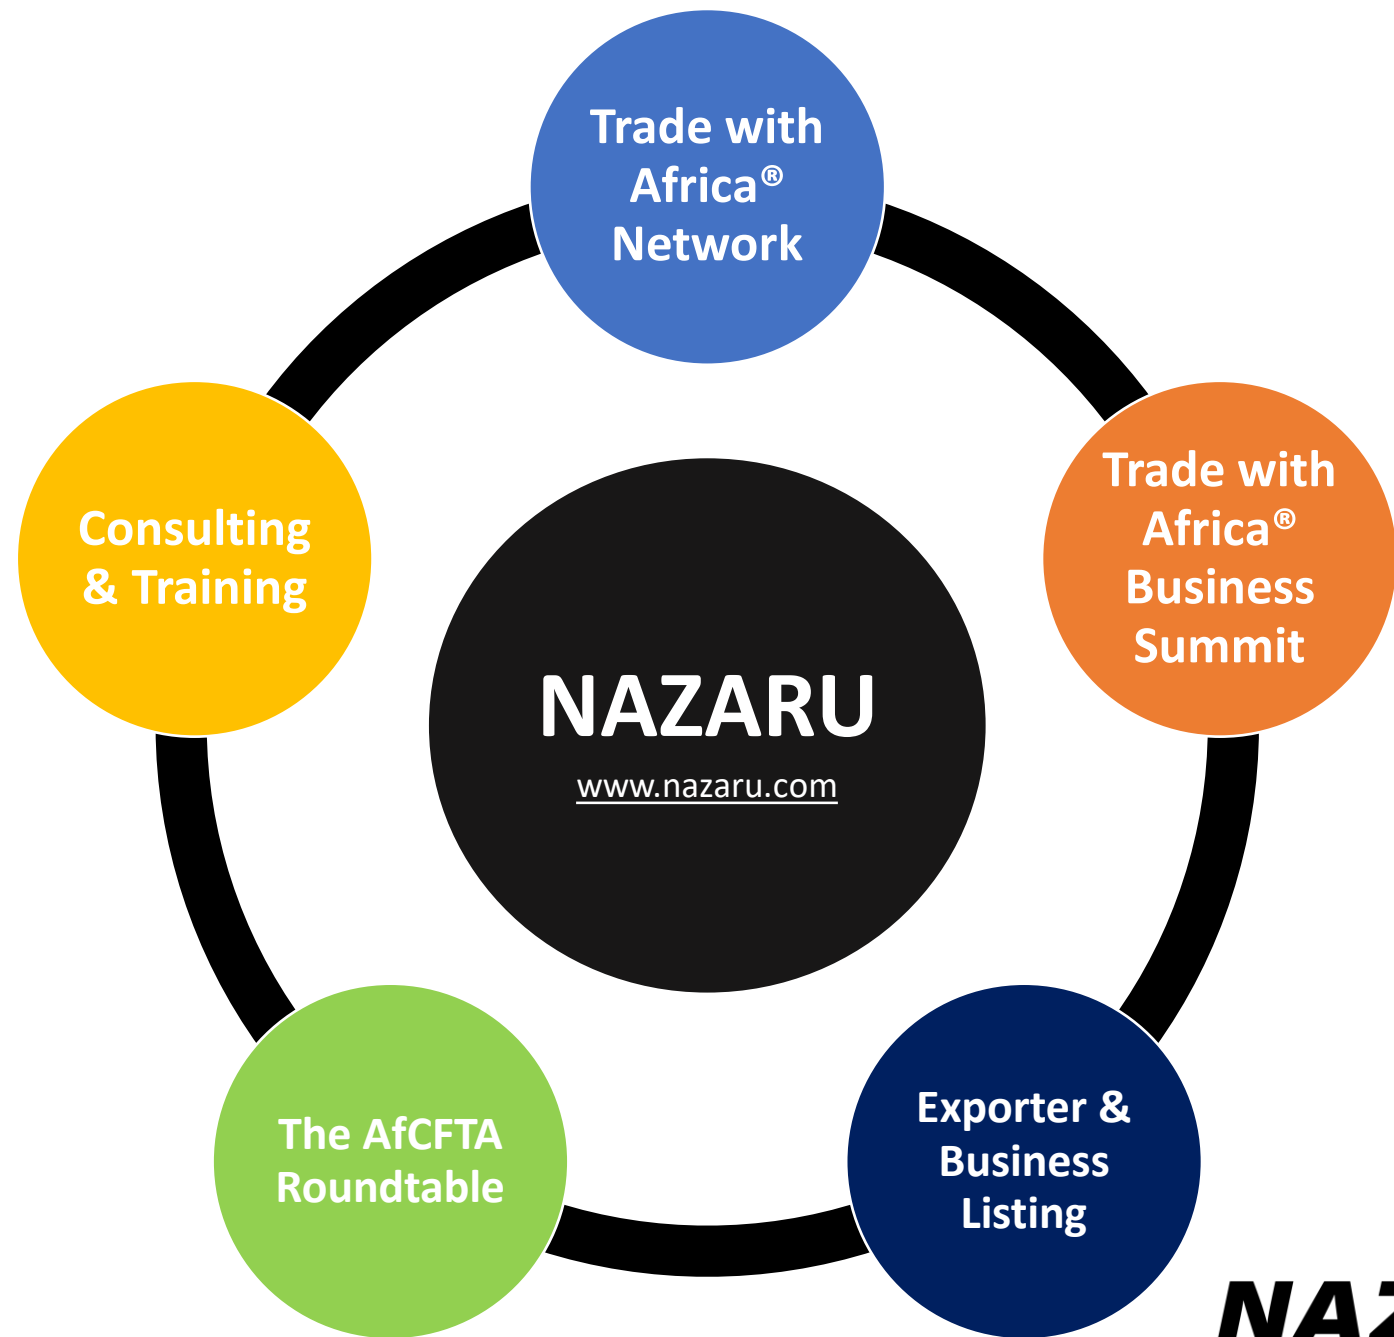

- The population on the continent of Africa is project to double by **2050** from 1.1 billion people to about 2.2 billion.
- Prior to Covid-19 Africa had 6 of the top 10 fastest growing economies in the world.
- With about 70% youth population Africa is positioned as the next productive center of the world.
- 60% of the world's remaining arable land is in Africa.
- A growing middleclass
- Fast paced rate of urbanization
- With the passing into force of the African Continent Free Trade Agreement (AfCFTA), the world's largest trade bloc now sits in Africa
