Foreign Policy Association's Great Decisions 2024 Topics

There are multiple ways to consider matters of global importance.
~ Book, DVD, Discussion, PDF, YouTube & ZOOM ~

The Great Decisions Briefing Book features impartial, explanation and analysis on topics of global significance. Written by experts, each article offers policy options for U.S. officials as well as questions and tools for discussion.

Books may be ordered from the Indiana Council on World Affairs, Inc, at the Indiana group discount. Educational discounts for schools and libraries are also available.

ORDER 2024: www.indianaworld.org/books

The Foreign Policy Association (FPA) Great Decisions Briefing Book topics form the basis for lectures and group discussions around the country. Great Decisions is America's largest public discussion program on world affairs and foreign policy.

Our nation's pressing U.S. foreign policy concerns and conditions in regions of the world are addressed, such as: East Asia, Asia-Pacific, and the Middle East. Topics of international law and military alliances are considered, such as NATO and the High Seas Treaty. Also, matters of global impact including scientific advances across borders, trade policies, climate change, and management of global health care are explained.

Join in for another year of informative articles and stimulating discussions. And order your Great Decisions 2024 book today!

*Note: Great Decisions 2024 is applicable for Academic WorldQuest 2024, an ICWA global studies program for high school students.

Great Decisions 2024 Topics:

Topic 1: Mideast Realignment by Marc Lynch: The United States and Middle East are at a crossroads. In spite of a reduced presence in the Middle East, the U.S. still has significant national interests there and the area is a key arena for global power politics. Can the U.S. continue to defend its interests in the Middle East and globally with a lower level of military and political involvement, or should it recommit to a leading role in the region?

Topic 2: Climate Technology & Competition by Bud Ward: Will the United States and China, with other powerful countries following suit, approach current and future climate initiatives with an increased commitment to trade protectionism and nationalism, by various measures including trade restrictions? Or could a growing spirit of international accord develop to confront the "common enemy" of climate change?

Topic 3: Science Across Borders by Mila Rosenthal: Scientific advances benefit from collaboration between researchers, but what happens when material, such as Artificial Intelligence (AI) is controversial and important to a nation's national security? Is there a middle ground between sharing information and denying access? How can we regulate cooperation?

Topic 4: U.S.-China Trade Rivalry by Jonathan Chanis: China's economic rise and its policies of increasing the role of the state in the economy have led some U.S. policymakers to seek to deny China access to U.S. technology and investment. This is seen as a necessary corrective to decades of predatory Chinese economic policies. Is this a wise strategy, and how effective can it be?

Topic 5: NATO's Future by Sarwar Kashmeri: Since the Russian invasion of Ukraine in February 2022, the North Atlantic Treaty Organization (NATO) has come under increased scrutiny, not because NATO troops are involved in the conflict, but because of its role in relations between Russia and its neighbors. Will expanding membership in NATO protect countries, or will it further provoke Russia?

Topic 6: Understanding Indonesia by Charles Sullivan: Despite its large size, Indonesia remains virtually invisible to most Americans. But as one of the world's largest democracies, the world's largest Muslim-majority nation, and as an economic driver of ASEAN, why does it fly below the radar? What are current U.S.-Indonesian relations issues, and what role can the U.S. play in Asia?

ASEAN / Association of Southeast Asian Nations. A political and economic union of 10 member states.

Topic 7: High Seas Treaty by FPA editors: Areas of the seas beyond national jurisdiction comprise the high seas, which are facing a degradation of ecosystems due to climate change and the increase in human activities, such as shipping, overfishing, pollution, and deep-sea mining. The recently negotiated High Seas Treaty, also known as the Biodiversity Beyond National Jurisdiction treaty, will attempt to address these issues. How difficult will it be to convince nations to participate?

Topic 8: Pandemic Preparation by Carolyn Reynolds: Looking back at the covid-19 pandemic, there are many lessons to take away in terms of domestic and international policies. Although this pandemic seems to have waned, how can we apply these lessons to future pandemics? Will countries cooperate, and will a consensus emerge on how to manage global health challenges?

Published annually by the Foreign Policy Association (FPA) - an independent, non-governmental organization - promoting informed public opinion on U.S. foreign policy and global affairs. The projected release of the Great Decisions Briefing Book and related materials is January 2024. The topic order and titles are final.
